

DOMESTIC BUILDINGS ON THE MOVE

Projects

- Prefabricated Granny Flats
- Prefabricated Homes
- Prefabricated Home Additions

Custom Transportable Buildings (CTB), is a Hunter based private company that has a national track record of success in providing custom designs, prefabrication, transportation and installation of a variety of building projects.

Step by Step Help

Whether you are looking to build a home, make additions to your current home, or build a separate granny flat, we at CTB, are pleased to discuss any of these projects with you. From your initial consultation, one of our consultants is allocated to your project to advise and help you with your building plans and interior design. Our consultant helps you with:

- Material Choice
- Colour Matching
- Flooring
- Kitchen Design
- Bathroom Design

Our allocated consultant assumes full responsibility for your project and helps you every step of the way. Our one-stop shop services include:

- House Plans
- Energy Assessments
- Site Positioning
- Construction
- Interiors & Design

Key Advantages

- Eliminate the angst of dealing with building trades & professionals
- Customise design to your specifications
- Use your architect design if you wish
- Guarantee competitive prices
- Provide a wide range of materials & products
- Offer step-by-step individualised guidance & assistance
- Save time as project is prefabricated
- Meet construction deadlines
- Feature quality inclusions
