Transportable Difference

Custom Transportable Buildings (CTB) is renowned for its high quality transportable industrial structures. Lengthy construction periods are now a thing of the past. Industrial setup or expansion can be affected overnight. And, we can provide this outcome with maximum efficiency and minimum cost. These, plus our technological edge, have added to our reputation as a leading Australian and international manufacturer, designer and installer of transportable industrial buildings.

Diverse Industrial Structures

- Engineered Industrial Buildings
- Machine Enclosures
- Commercial Offices
- Computer Rooms
- Training Rooms
- Acoustic Buildings
- Electrical Control Rooms
- Customised Air Conditioning Plants
- Air Pressurisation Systems
- Electrical Switchrooms

Competitive Differentiation

- Rigid Quality Control
- Unique Transport Arrangements
- Dependable Delivery Schedules
- Tight Budgetary Controls
- Full Structural Design Team
- Specialist Electrical & Mechanical Installation
- Complete Pre-Delivery Commissioning
- Reduced On-Site Installation Costs
- Manufactured to Relevant Building Codes & Standards
- Durable Overall Construction
- Low Ongoing Building Maintenance Costs
